I FEEL IT IS IMPORTANT TO ENSURE QUALITY.

MY JOB IS VERY IMPORTANT TO ME DUE TO THE FACT THAT IT IS MY INCOME. IF I DON'T MAKE ANY MONEY, IT WOULD AFFECT EVERYONE I DO BUSINESS WITH. ~~IN A SMALL BUSINESS COMPANY~~

IF I LOSE MY JOB I WOULD NOT BE ABLE TO SUPPORT MYSELF. I WOULD LOSE MY CAR, COMP, APARTMENT, ETC. WITH THE ECONOMY DOWN IT WOULD CREATE A STRUGGLE FOR ME TO FIND WORK FOR MY LIVERLY HOOD.

I OPPOSE THE NATIONAL DNC LIST AND RESTRICTIONS ON PREDICTIVE DIALERS.

I SUPPORT TELEPERFORMANCEUSA'S AND THE AMERICAN TELEMARKETING ASSOCIATION'S PROPOSED MODIFICATIONS TO THE FTC RULES.

To Whom It May Concern:

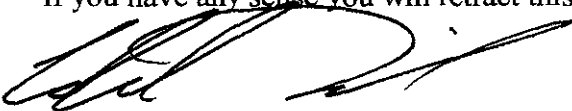

I writing in regards to the new law you would like to put into affect that would greatly impact the telemarketing industry as well as our *national economy*.

How can we be making laws that will be placing our economy into a further recession?

This is a straight political move on the Bush administration to try to win votes in the upcoming election! Do you not realize that you will be hurting the already damaged economy even more!!!

You need to look into this further. You need to know the impact this law will cause on the economy and how *many other individuals* will be unemployed because of this senseless law aimed at hurting companies who conduct legitimate tele-service business. Are you aware of the millions of tax dollars that will be lost due to this law? If so how do you think those tax dollars will be made up? I can't believe our so called leaders of this country would vote yes on such a ridiculous bill when they do not even know the repercussions of their actions.

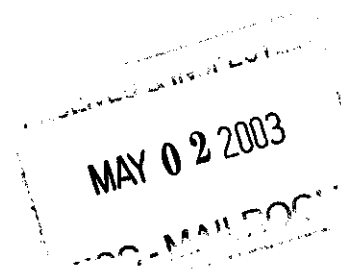

If you have any sense you will retract this so called bill immediately!!!

To Whom It May Concern:

I am an employee at Teleperformance USA. I work in the corporate office in Salt Lake City, Utah. I am involved with our clients to ensure that quality guidelines and standards are met through our company. I am against a National Do Not Call Registry.

I really enjoy my job here at this company, and I feel that what I do here is very important. We make sure that not only the clients that we deal with are pleased with our services, but that the Consumers are also pleased. I am a hard working individual who works for a company that sells valuable products and services to other hard working individuals in our country.

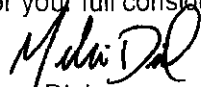

My job here is very important, not only to me, but to my family as well. I am the Mother of one with another on the way, and am very dependant on this industry as my husband is also an employee here at Teleperformance USA. This is the way that we support our family and pay our bills, and is our only source of income. We have a home and a payment that we have to make every month to keep a roof over our heads, as well as other payments and the cost of food for our family.

The National registry for a do not call list will hurt this industry in many ways. We will loose hundreds of thousands of jobs throughout the country, jobs that are held by working mothers and fathers, minorities, people trying to put themselves through school, and people who do not have a lot of other employment opportunities. It is very important to realize that Telemarketers are not just the annoying voices on the end of the phone line. We are all hard working people trying to support ourselves and our families. We all have names and faces and many of us will be hurt severely by a National Do Not Call Registry.

Not only will it hurt this industry, it will hurt our Nation as a whole. It will put many people out of a job, making the Unemployment rate skyrocket and put thousands more families on welfare. It will also cost the Federal Government billions of dollars in lost tax revenue. Not to mention it will hurt our already ailing economy.

I think that the new regulations being proposed go way too far. There are other ways to protect our consumers that are less destructive to the United States, and the Telemarketing Industry. Imposing company specific do not call lists and providing devices and services to screen calls are just a couple solutions to this problem.

Thank you for your full consideration on this topic.

Teleperformance USA
Salt Lake City, UT
Corporate Quality Assurance
Callbacks Supervisor

I feel Teleperformance is an honest
company that supplies quality products
to its customers. Telemarketing as a whole
also makes a great contribution to
our struggling economy. It supplies
good paying jobs with benefits to
thousands of Americans. Personally, as
a college student, I do not have a lot
of other job options until I finish my
education and I am sure there are many
other people in my position.
I hope the FCC and the public
realizing the impact the National DLE
bill will have on our Nation's economy
and please support the proposed modifications.

Thank you for your full consideration on this topic.
Sincerely,
Dyana

Re: CB Docket No. 02-278

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

~~I work for Teleperformance U.S.A.~~ I work for Teleperformance U.S.A. in Salt Lake City, Utah in Quality Assurance as a Call Back Q.A. Representative. I really enjoy my job and the interaction with the people I call. The benefits from the products we sell are really helpful. A lot of people have no health insurance and we have programs that provide those to people who can't afford insurance for whatever reason and especially those who are unemployed. A lot of our programs provide discounts to families with large numbers of members. A lot of people are handicapped or unable to get around because of no transportation or tending children, and we provide the service in the comforts of their homes, or business.

My job is very important to me. I am 48 yrs old and I have worked in call centers the past 5 years. This is where my experience is. I will have a very difficult time finding work in any other field. I will be homeless along with my family if I lose my job. This is inevitable you impose the National DNC list and place restrictions on Predictive Dialers. I believe that Teleperformance U.S.A. and the American Telemarketing Association's proposed modifications to the FTC rule are more appropriate. Without call centers our economy would be deeply affected in a very negative and devastating way.

Thank you for your full consideration on this topic.

Rules and Regulations Implementing the
Telephone Consumer Protection Act of 1991

I work in Salt Lake City, UT. One of America's number one Telemarketing states. Utah is a hard place to find any jobs other than Telemarketing. I've looked long and hard for a job that pays more than minimum wage and all I can find in this state is Telemarketing jobs. I currently work for Teleperformance U.S.A. and I am happy with the type of work I do. I call back sales to re-verify that the customers want the products sold to them. And a lot of the people I talk to are satisfied with the sales and our services.

I need my job to help support my 8 month old child and if I was without a job I'm sure I would have a harder time finding enough pay to support my family. My son has just recently been diagnosed with a Terminal illness and if I don't have the funds to help make the life he has comfortable who will. I would have to ask the community for support in medical and food.

I oppose the National DNC list and restrictions on Predictive Dialers and I support Teleperformance USA's and the American Telemarketing Association's proposed modifications to the FTC rules.

Thanks for your consideration,

Ref: CG Docket No. 02-278
Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

My name is Kevin Jones. I work for Teleperformance USA out of Salt Lake City, Utah. I am a Sales Retrieval Agent. I listen to sales that are requested by the clients and customer's complaints to see what happened during the call so a resolution to the complaint can be found.

I like my job. I am happy here, and I like what I do. I have a fiancée and am getting married in June. We plan on starting a family. It will be hard at first because she is out of work and is job hunting. I think that alone shows the importance of keeping my job so I can support my family. The impact of losing my job the way things are now would be huge. I would lose my apartment, and have no place to live. I would lose my pets, which are like family to me. I would not be able to support my family. You guys don't have to worry about this stuff but if you in my shoes you would see just how important things are. I am sure that you all know in the FCC the importance of a paycheck. I am able to live off of what I make, and I live modestly believe me. I don't have rich parents, or a trust fund, or anything like that. I need to work to make a living. By passing this National Do Not Call list it is not only me it is thousands of others across the country that would experience the same problems. Lets look at the country now. The unemployment rate is high and the economy is not strong. If you passed this National DNC list look at how many more people you just put out of work. The unemployment rate is to high now and I know people looking for jobs and can't find one it. There are not many out there and that list puts thousands more in that position. The telemarketing industry makes a lot of money every year and it does create more jobs. More jobs, more spending is what we need in this country to lower the unemployment rate and strengthen a weak economy. If the telemarketing industry does both it does not seem wise to me to pass a bill that would paralyze the industry and effect the lives of many hard working people. There are ways to get around this that is a win for everybody. I know that phone companys have programs that block out calls, caller ID, and answering machines, all these are effective and used in homes for that reason, to block out telemarketers. They do also use them to screen calls so they can pick whether they wanted to answer the phone. It is not like people will drop all those things if this list gets passed. They don't want to talk to a lot of people not just telemarketers. I am hounded by door to door salesman, I think that that is the same thing. I think all marketing is the same be it over the telephone, door-to-door, or even people who catch you in parking lots, its all the same. I you pass the list then you should also pass a law about door to door salesman. I have just as much right to not have them sale something to me at me door as much as you do on your phone. I hope that the

Consumer Protection Act of 1991.

Dear Sir/Madam,

My name is Ronald Bacchus and I am employed by Teleperformance USA in SLC, Utah. I am currently in the QA department and have been with the company for 2 1/2 years.

I know my job is not amongst the best, but it gives me the opportunity to provide for my wife and kids. It feeds us, pays our bills and we are happy. Before I came to this country I was unaware that jobs like ours even existed. A JOB which allows consumers to voice their views, opinions and ideas through us concerning various products and services so that the manufacturers and producers of these products can know exactly what customers want, and thus make changes and improvements to offer a better, more reliable and useful product.

So, of course I am strongly against this National D.N.C. Eto and the restrictions that goes along with it. Not only will it leave me and many others, as a father and, in my case, the provider of our household, penniless

Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991

I work in the Salt Lake City, Utah Teleperformance call center, in the Quality Assurant Department. What I do is after sales has been verified, if for some reason there's a problem with a sale, what I do is call the customer back make corrections and re-verify the information on to the tape-recorder.

I do enjoy my job and truly believe that the products we sell will benefit our customers, and help them in many ways. It's not like we sell our products to destroy our customers. By passing this National Do Not Call Registry law, it will have a drastic effect on my job and many others trying to survive in this world with their job. We believe the Federal Trade Commission has gone way to far in promoting the national list.

I oppose the National Do Not call list and restrictions on predictive Dialers and I support Teleperformance USA's and the American Telemarketing Association's purposed modifications to the Federal Trade Commission rules.
